Our Mission

The mission of the Texas Pediatric Society Foundation (TPSF) is to enhance the well-being of Texas children by supporting efforts to help improve their health, safety, and education and to make a positive impact on their lives and futures.

About the TPS Foundation

Established in 2001, the TPSF is primarily led and supported by pediatricians. We support the initiatives that are important to pediatricians and their patients.

We've joined the fight against childhood obesity, promoted literacy, battled child abuse, and helped keep kids safe in the car, on the playground, at school, and at home.

Over the past 15 years, we've awarded over four hundred thousand dollars to projects and programs across the State to make Texas a better place for children!

TPS Foundation 2018 *Featured Grantee*

Texas Campaign to Prevent Teen Pregnancy

The Texas Campaign to Prevent Teen Pregnancy is a non-partisan, non-profit education and advocacy organization committed to reducing the rate of teen pregnancy across Texas. They provide statewide leadership around the issue of teen pregnancy by focusing on what works and connecting communities to the research they need to make an impact. Their goal is to increase the capacity of community members to address the complex issue of teen pregnancy and build momentum for systemic statewide change.

Easterseals of Central Texas- Audiology Program

For nearly 100 years, Easterseals has served as an indispensable resource for people and families living with disabilities. Their core purpose is to promote independence and create opportunities for people with disabilities to pursue their hopes and dreams.

The goal of the *Audiology Program* is to positively impact the lives of people in Central Texas through improved hearing. Recognizing the importance of early intervention, the program assists children who are struggling with hearing disabilities through a variety of services to improve their hearing including: standard hearing tests, speech and language therapies, and hearing aids.

Circle of Giving

Why Give?

We are your ally in the programs we support each year because your voice is our voice. We rely on the pediatricians and child advocates of Texas to identify the emerging needs and issues important to children in Texas. Giving to TPSF is not only a contribution to support children's health and safety, but also a contribution to yourself, your colleagues, and your friends who are doing great work that will make a difference.

Your Foundation. Your legacy. Give today.

I Give!

Read more about our giving levels below to find the one that is right for you. Give today at txpeds.org/tps-foundation.
