

Providing for the Health, Welfare, and Safety of our Children

Circle of Giving

Our Mission

The mission of the Texas Pediatric Society Foundation (TPSF) is to enhance the well-being of Texas children by supporting efforts to help improve their health, safety, and education and to make a positive impact on their lives and futures.

About the TPS Foundation

Established in 2001, the TPSF is primarily led and supported by pediatricians. We support the initiatives that are important to pediatricians and their patients.

We've joined the fight against childhood obesity, promoted literacy, battled child abuse, and helped keep kids safe in the car, on the playground, in the pool, at school, and at home.

We've awarded funds to projects and programs across the State to make Texas a better place for children!

2020 Featured TPSF Grantee

Boys & Girls Club of Collin County *SMART Girls Program*

The *SMART Girls Program* teaches health, wellness, strong relationship development, prevention/education, and self-esteem to girls from 8-18 years old. Thanks to funding from the TPSF, the program prepares participants with practical tools and knowledge as they navigate their changing bodies throughout their middle and high school years.

2020 Featured TPSF Grantee

Spina Bifida Texas-*FashionABLE Program*

The FashionABLE program brings high school fashion design students together with children who have disabilities. Using creative thinking, advanced sewing skills, and with the guidance of the sewing instructor, designers find innovative ways to modify garments to accommodate each child's limitation. At the end of the school year, they hold a fashion

where each child and student show off their new specially designed wardrobe. The result is showstopping- Spina Bifida Texas FashionABLE kids are outfitted with an extra boost of confidence!

Fashion is not made for everyone and Spina Bifida Texas is changing that with TPSF's funding. Getting dressed is no longer an obstacle or stressful experience. Strutting the runway or striking a pose becomes empowering and exciting for the models!

Circle of Giving

Why Give?

We've been your ally in the initiatives we supported over the last 19 years because your voice is our voice. We rely on the pediatricians of Texas to identify the emerging needs and issues important to children in Texas. Giving to TPSF is not only a contribution to support children's health and safety, but also a contribution to yourself, your colleagues, and your friends who are doing great work that will make a difference.

Your Foundation. Your legacy. Give today.

I Give!

Read more about our giving levels below to find the one that is right for you. Fill out a donor card or go to txped.org/tps-foundation and give today.
