

Breastfeeding Your Baby

Making the
Decision
Together

Breastmilk:

- Helps a Baby's Brain Develop
- Protects Against Colds, Allergies and Other Infections
- Is the Only Food a Baby Needs for the First 6 Months of Life

Adapted from original materials developed by Center for Male and Family Research and Resources, Morgan State University, Baltimore, Maryland. This project was funded by USDA/FNS Cooperative Agreement #59-3198-040

October 2002 FNS 355

The U.S. Department of Agriculture (USDA) prohibits discrimination in all its programs and activities on the basis of race, color, national origin, sex, religion, age, disability, political beliefs, sexual orientation, or marital or family status. (Not all prohibited bases apply to all programs.) Persons with disabilities who require alternative means for communication of program information (Braille, large print, audiotape, etc.) should contact USDA's TARGET Center at 202-720-2600 (voice and TDD). To file a complaint of discrimination, write USDA, Director, Office of Civil Rights, Room 326-W, Whitten Building, 1400 Independence Avenue, SW, Washington DC 20250-9410 or call 202-720-5964 (voice and TDD). USDA is an equal opportunity provider and employer.
